

Graduation

Commencement will take place on Friday May 11th and Saturday May 12th . While Diplomas are not released on the day of the ceremony, Diplomas and Official transcripts will only be released to graduating students if their student account is completely cleared. All financial balances can be resolved in the Student Financial Services office in the Green Center or online through the MyLynn portal.

This Month...

Many staff members across the Lynn Community will walk across the stage at Commencement this month. Student Financial Services would like to congratulate all students and staff who have completed this very monumental goal.

Payment Reminders

Payment for the Fall is always due on August 1. Payment plans for the Fall can only be set up online and can be set up through MyLynn. 5 Stage Plans are available if signed up before July 1, and 4 stage plans if signed up before August 1.

Federal Work Study

Any student working on campus beyond May 11th, MUST receive authorization from Employee Services and Student Financial Services. Federal Work Study funds are limited and failing to receive approval will result in departmental budgets being responsible for student hire.

Summer Time

While many students, staff and faculty will spend time away from the Lynn University Campus over the summer period, Student Financial Services will remain open from 9-4pm every day. The office will remain open until 6pm during the Add/Drop week of Summer 2.

Financial Aid

Students can still apply for financial assistance from the government for the 18/19 school year by going to www.fafsa.gov. The SFS team is available to help and advise our students all summer long with any financial concerns that they may have. The Lynn University Scholarship Newsletter is also available on MyLynn.
